AWS Certification Exam Readiness Workshop System Operator - **Associate Level**

AWS Certification Exam Readiness Workshop – System Operator Associate Level is designed to complement Systems Operations on AWS. It is intended for individuals who are preparing for the AWS Certified System Operator Associate exam.

In this workshop, we review what to expect at the testing centre and while taking the exam. We walk you through how the exam is structured, including question formats, content domains, and the breakdown of questions across those domains. We also teach you how to interpret the concepts being tested by a question so that you can better eliminate incorrect responses. During the workshop, you will have the chance to apply knowledge and test concepts through a series of practice exam questions.

Course Objectives

This course is designed to teach you how to:

- Navigate the logistics of the examination process
- Understand the exam structure and question types
- Identify how questions are written to test AWS System Operation concepts
- Interpret the concepts being tested by an exam question
