

Designed to complement Advanced Architecting on AWS, this full-day workshop is intended for individuals preparing for the AWS Certified Solutions Architect – Professional exam.

The workshop provides an overview of the concepts and knowledge areas covered on the exam and walks you through the exam structure and question formats. Labs provide hands-on practice with advanced use cases, while practice exam questions test your understanding of key architectural concepts.

Course Objectives

This course teaches you how to:

- Understand the content domains and how AWS services map to them
- Combine multiple AWS services to solve complex architectural requirements
- Understand advanced concepts of core AWS services and associated use cases
- Identify how questions are written to test AWS architectural concepts

Prerequisites

We recommend that attendees of this course have:

- Attended Advanced Architecting on AWS
- Achieved AWS Certified Solutions Architect – Associate
- Two or more years hands-on experience designing and deploying cloud architecture on AWS
- Abilities to evaluate cloud application requirements and make architectural recommendations for implementation, deployment, and provisioning applications on AWS
- Capabilities to provide best practices guidance on the architectural design across multiple applications, projects, or the enterprise.

Intended Audience

This course is intended for:

- Individuals who are preparing to take the AWS Certified Solutions Architect – Professional exam

Bring Your Own Device

Please note that this class requires you to bring your own device. Plan to come to class with the following:

- A notebook computer with Wi-Fi (labs cannot be completed on an iPad or tablet device)
- Administrator access to the computer, if Windows
- Chrome, Firefox, or Safari
- Smart device / tablet to access course literature (optional)

Course Outline

- ✓ Introduction to content domains and exam structure
- ✓ Detailed discussion of content domains
- ✓ Hands-on labs to reinforce specific use cases
- ✓ Example questions and scenarios for group discussion
- ✓ Practice exam questions
